

Science Challenge !!

Miss Millington

Science Lead

Thoughts about my Subject:

Science is my favourite subject because it help us to learn about the world around us. It gives us the chance to wonder and discover new things by experimenting. There are always new things to learn and exciting things to explore.

"The important thing is to never stop questioning" - Albert Einstein

This term in Science when I look in your books and visit your lessons I would love to see:

You using the correct words for parts of the body and our senses.

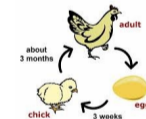

You exploring different animals and naming all of their different parts.

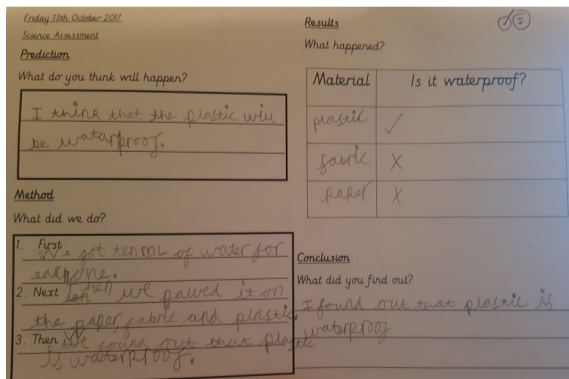

Doing lots of exercise and eating a balanced diet... because that's what keeps us healthy!

Learning about life cycles.

Great Science I have seen happening around school last term!

Can you grow something of your own this spring?
 Research things that are good to grow in the spring time and find a space for them in your garden or using a pot in your home.
 Some ideas:
 -Herbs
 -Cress
 - Sunflowers

Science News!
 RSPB big bird watch is starting now. You can get involved at the RSPB website.

Young entrepreneur raises 56 hens and earns lots of egg-stra pocket money.

Slime star reveals how she makes her videos.
