

Art & Design Design Technology

Mrs Pimlott

Art and Design Lead

Design Technology Lead

Thoughts about my subject:

The aim of Art and Design at St Anne's is to develop creativity whilst engaging, inspiring and challenging our pupils, giving them the knowledge and skills to experiment, invent and create. In doing so, allowing the children to think critically, gain an understanding of art and design and reflect on how it shapes our history and contributes to the culture, creativity and wealth of the nation.

Art & Design Challenge

Can you draw a picture, using only straight lines?

Jackson Pollock's work was made by dripping lines of paint

Did you know?

Jobs in the design industry include...
