

Subject Leader Portfolio

Catholic Life

Come and see,

Collective Worship and R.S.H.E

Thoughts about my subject:

The Catholic nature and Ethos of our school is evident everywhere you look in our school community. They are at the heart of everything we do and flows through our learning river, whether you are in a R.E lesson or studying Maths or Geography. Our inclusive community, with Christ at the centre, allows our pupils to fulfil our school motto and mission; "Learn to love and love to learn, in readiness for life".

When I look in your books and visit your lessons I would love to see:

Our pupils using key vocabulary to help support their explaining.

Time for our pupils to develop their own spirituality by time dedicated to quiet reflection.

Children pushing themselves in the learning through Dive Deeper tasks.

Great work I have seen happening around school:

Children taking part in a range of activities—not just written ones to explore our learning themes and grow their Knowledge and Understanding.

Year 6 pupils joining our Cafod Club to further develop their knowledge and involvement as global citizens.

Learn to Love & Love to
Learn in readiness for life
